

PowerServe 6X

The PowerServe Charging Station is for schools that need to provide on the go power to students so they stay powered anywhere without being limited to fixed infrastructure constraints. Each PowerServe 6X Charging Station comes with Vibe 20K Power Banks, which can be easily deployed and fully recharged in a couple of hours. Each station only needs one AC outlet to operate, is flexible to fit any space design. One PowerServe 6X Charging Station can charge up to 6 units simultaneously.

Features
